

24/05/2021

Dear Resident,

Building safety update for Burney House

I hope you are keeping safe and well. As you know, Southern Housing Group is currently reviewing all of its buildings to ensure they meet the latest building safety requirements. Our building safety team has recently visited Burney House as part of our ongoing building safety programme.

Southern Housing Group's fire safety consultants, M10 Fire Consultancy, is currently compiling a report which we expect to receive shortly. This report will detail what remedial work, if any, is required at Burney House. We will discuss the contents of this report with you over the summer, and we hope to be able to share a clear plan for remediation by autumn 2021.

In the meantime, you may see some members of our building safety team within the communal areas of your building. They will be carrying out some investigation work in the corridors. This work will not be disruptive, and all operatives will be adhering to Covid-19 guidelines, including social distancing and the use of face masks.

Southern Housing Group has recently launched [a microsite](#) for the safety work taking place at Burney House.

This site gives residents a single resource for finding out information regarding the building safety programme at the property and will house all available updates and documentation.

It will be updated regularly, and we would encourage residents to use this site as their primary information source.

We will write to you again with another update in the summer. You can find more information about our building safety programme [on our website](#).

If you have any other queries, please email BurneyHouse.BSP@shgroup.org.uk. Please allow up to five working days for a response.

If you are receiving this update through the post, that is because we either do not have a useable email address for you, or because you have previously unsubscribed from Southern Housing Group mailings. If you would prefer to receive future updates via email, please let us know at the above email address, and we will ensure that you receive everything you need.

Yours sincerely,

Building Safety Team | Southern Housing Group
