RE: Cladding Remediation – Fortuna House, Zeller House, Meander House, Karner House, Mara House, Maya Apartments, Coville Mansions, Calla House, Kotata House, Merle Mansions, and Tayberry House

Dear Resident,

Following the Aluminium Composite Material (ACM) panel removal, the phased programme to install the replacement cladding panels is about to start and is expected to complete in December.

You will begin to see contractors on site this week with some scaffolding going up on some blocks on Monday 7 June.

As the works progress, we will be working with the contractors to provide tailored block updates to the residents directly affected. Updates will be shared via your relationship management teams at Get Living and Triathlon Homes.

Thank you for your understanding and support during this period.

Best wishes,
Team East Village
