Waking Watch Funding Awarded for N13 and N26

I am delighted to let you know that we have today heard from EVMML that Waking Watch Relief funding has been awarded to the N13 and N26 plots at East Village.

We know that you have been anxious for news on the status of this application, which covers the cost of the fire alarm installation in the blocks, and I am hoping that this news will bring at least a little relief from the current situation. We will be able to give residents more information on the levels of funding shortly, and will be back in touch with you when we have further details from EVMML.

The team at Triathlon has taken on board your need for regular updates on the status of the work required and the ongoing application to the Building Safety Fund, and with this in mind, we will be setting up a regular session for residents of each plot to gain updates and ask questions. We will be in touch about the first of these sessions very soon.

Best wishes,

Kath King
Managing Director, Triathlon Homes
